The Editor's Big Day

The editor of a Kansas paper says that he picked up a Winchester rifle recently and started up the street to deliver the weapon to its owner. The delinquent subscribers got it into their heads that he was on the war path, and every one he met insisted on paying all they owed. One man wiped out a debt of 10 years' standing. On returning to the office, he found a load of hay, 5 bushels of corn, 10 bushels of potatoes, a load of wood and a barrel of turnips.—La Belle Star.

Fire, which broke out at about 9.30 Sunday evening, destroyed the plant of the Hardwick Polishing Company, and the loss is considerably larger than the insurance of \$1,500. It was only two weeks ago that the company caused the insurance on the property to be reduced from \$2,000 on the ground that the insurance rates were high. The cause of the fire has not been determined.
